

Features of HyDronic series Truck Heater 12 Volt

- By heating liquid to release heat, fuel saving (0.1L/h/kw).
- 5KW, 8KW and 12KW heating solutions.
- No noise and comfortable feeling.
- Very safe materials, the whole units adopt fire resistant materials to keep the drivers safe.
- Very safe control system, different types of protect devices, such as high temperature alarm to keep drivers safe.
- Eco-friendly materials, in-odorous and atoxic.
- Intelligent control system. Manual and automatic integration, intelligent variable-frequency control, eco-friendly and energy saving.
- Intelligent temperature control system. Add on temperature sensor, more accurate to control temp.
- Intelligent to tell the elevation, adjust power to suit different terrains.
- Brushless electrical machinery, long service life and high efficient.

Model	HyDronic5000				HyDronic8000				HyDronic12000					
Heating medium	Liquid				Air				Liquid					
Fuel	Diesel				Diesel				Diesel					
Voltage (V)	12/24				12/24				12/24					
Heating Rank	Low	Middle	High	Super	Low	Middle	High	Super	Low	Middle 1 st	Middle 2	Middle 3	High	Super
Heating Capacity (W)	1500	3200	5000	8000	1500	3500	8000	9500	1200	1500	3500	5000	9500	12000
Water Flow (L/H)	1400				1400				1400					
Power Consumption	35	39	46	55	35	39	60	86	34	35	39	46	86	132
Fuel Consumption (L/h)	0.18	0.40	0.65	0.90	0.18	0.40	0.90	1.2	0.18	0.18	0.40	0.65	1.20	1.50
Size (mm)	310*115*122													
Weight (kg)	2.7
